

Independent Verifier's Report

General Partners
Lateef Investment Management
300 Drakes Landing Road, Suite 100
Greenbrae, CA 94904-3123

We have verified the compliance of Lateef Investment Management (the "Company"), as defined in their composite disclosure presentations, with the requirements of the Global Investment Performance Standards (GIPS®) on a firm-wide basis from January 1, 1994 through December 31, 2008 and whether the Company's processes and procedures are designed to properly construct composites, calculate performance results and present composite information in compliance with the GIPS standards. In addition, we have examined the performance results in the accompanying disclosures of the Company's *Lateef Taxable All-Cap GARP Equity Composite* from January 1, 1994 through December 31, 2008. The Company's management is responsible for compliance with the GIPS standards, the design of its processes and procedures, and for the Quarterly Performance and Composite Disclosure Presentations. Compliance with the Standards does not obviate the need for due diligence on the part of prospective or current clients or consultants in evaluating performance data and other important qualitative research on investment managers. Our responsibility is to express an opinion based on our verification and performance examination.

Our verification was conducted in accordance with the verification procedures set forth in the GIPS standards. Also our performance examination was conducted in accordance with the procedures set forth in the Guidance Statement on GIPS Performance Examinations. These procedures included examining, on a test basis, evidence about the Company's compliance with the GIPS standards, evaluating the design of the Company's processes and procedures referred to above, performing the procedures for a performance examination and performing any other procedures we considered necessary in the circumstances. Verification, including a performance examination, is not an audit of financial statements and is substantially less in scope than such. It does not involve forensic testing of every transaction in every account and does not ensure the absolute accuracy of performance information or guarantee against fraudulent activity. We believe that the procedures completed provide a reasonable basis for our opinion.

In our opinion, the Company, in all material respects, has complied on a firm-wide basis with the composite construction requirements of the GIPS standards as adopted by the CFA Institute. Additionally, the Company's processes and procedures are designed to calculate and present performance results in compliance with the GIPS standards. Also, in our opinion, the performance in the accompanying disclosures of the Company's *Lateef Taxable All-Cap GARP Equity Composite*, for the period stated above, reflects results that comply with the calculation requirements of the GIPS standards in all material respects. The Quarterly Performance and Composite Disclosure Presentations are an integral part of this opinion.

All rates of return are reported "NET" of fees. Additional information regarding the policies for calculating and reporting returns is available upon request.

Past performance is not indicative of future results. The actual return and value of an account will fluctuate and at any point in time could be worth more or less than the amount initially invested.

For comparison purposes, the composite is measured against the S&P 500 Total Return Index.

The average market capitalization of portfolios in the composite may differ from the weighted average market capitalization of the index. Additionally, the volatility of the index may be greater or less than the volatility of the portfolios in the composite.

The composite creation date is January 2003. A complete listing and description of all Lateef composites and performance results is available upon request. The annual composite dispersion presented is an asset-weighted standard deviation for the accounts included in the composite for the entire year.
